

PREMIER TRAFFIC MANAGEMENT ENVIRONMENTAL POLICY STATEMENT

INTRODUCTION

Premier Traffic Management Ltd recognises that businesses are responsible for achieving good environmental practice and operating in a sustainable manner. We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. It is our priority to encourage our customers, suppliers, and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

KEY IMPACT AREA'S

- Energy use
- Raw material use
- Waste generation
- Emissions to air/water
- Water use
- Contamination
- Transport
- Procurement

STATEMENT OF POLICY

Adopt the highest environmental standards in all areas of operation, meeting and exceeding all relevant legislative requirements and have achieved the ISO14001: 2015 accreditation.

Assess our organisational activities and identify areas where we can minimise impacts.

Minimise waste through careful and efficient use of all materials and energy.

Purchase sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products and energy from renewable sources].

Train employees in good environmental practice and encourage employee involvement in environmental action.

Reduce risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.

Adopt an environmentally sound transport strategy.

Aim to include environmental and ethical considerations in investment decisions where appropriate.

Assist in developing solutions to environmental problems.

Continually assess the environmental impact of all our operations.

Minimise our waste and then reuse or recycle as much of it as possible.

Operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.

Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community.

Assess the environmental impact of any new processes or products we intend to introduce in advance.
